

State Board of Education Member,

Please consider having every Texas public school student, from grades 7-12, take a Pictorial Reading - Free Interest Inventory. This could remain in his/her education files and follow him/her through college, the military, the juvenile system, and/or even prison.

Such an interest - inventory would be an excellent base for communicating with the individual in terms of job training.

2 examples of such interest inventories are:

① R-FVII:2 From
Elbern Publications
P.O. Box 09497
Columbus, OH 43209

② WRLOT Pictures from
Jastak Associates, Inc
1526 Gilpin Avenue
Wilmington, DE 19086

Thank you,
