**Schwertner Announces Committee Investigation
of Planned Parenthood Following Disturbing New Video**

AUSTIN, TX -- Today, Senator Charles Schwertner, MD (R-Georgetown) made the following statement regarding the recent video showing Dr. Deborah Nucatola, Planned Parenthood's Senior Director of Medical Research, admitting to the organization's routine sale of organs and other aborted fetal tissue:

"The recent video showing a senior Planned Parenthood executive casually discussing the sale of organs and dismembered body parts of aborted human babies is unquestionably one of the most evil and deplorable things I've ever seen. I know many Texans are equally horrified by such a callous disregard for innocent human life.

"After speaking with Lt. Governor Patrick, I plan to call the Senate Committee on Health and Human Services into an emergency meeting later this month to ascertain whether this appalling practice is currently taking place in Texas, and if so, what steps can be taken to put a swift and decisive stop to it."

A medical doctor by training, Dr. Schwertner currently serves as Chairman of the Senate Committee on Health and Human Services. Schwertner is currently serving his second term as the senator for Senate District 5, a ten-county region of central and east Texas.

The video in question can be viewed here:
