**Senator José Menéndez Mourns the Loss of Our Long-Term Public Servant and Friend**

**San Antonio, TX —**

***Senator José Menéndez released the following statement:***

"Commissioner Paul Elizondo spent more years in public service than most of us have been alive. It is impossible to look anywhere in Bexar County and not see the great impact left by his labor. I cannot imagine the sorrow that his wife Irene and the rest of his family must feel. His loss will be felt by many people in this community and on the Commissioner's Court for years to come. Our thoughts are with the family, and we pray that they may feel peace and comfort, during this time. Paul touched tens of thousands of lives as an Entertainer, teacher, veteran, mental health advocate and public servant. His legacy and memory shall live on."
